

## State Clean Energy-Environment Technical Forum Tracking Performance of Lead-by-Example Programs

**Tues., Jan. 17, 2006  
2:00 - 3:30 PM ET**

**Toll free: 1-800-974-2164  
Passcode: 827218#**

<b>Welcome Roll Call &amp; Ground rules for Call</b>	Julie Rosenberg, EPA Catherine Morris, TKC	5 minutes
<b>Overview of Topic:</b> (see background document)	Julie Rosenberg, EPA	5 minutes
<b>Massachusetts Measurement and Tracking: State Building Energy Consumption and GHG Emissions (Executive Order 438)</b>	Eric Friedman, MA EOE	15 minutes
<b>New York Measurement and Tracking: Green Purchasing and State Energy Consumption and Emissions (Executive Order 111)</b>	Matt Brown, NYSERDA	15 minutes
<b>Texas Measurement and Tracking: Using ECALC for Energy Savings and Emissions Reductions from EE/RE Measures (SB 5)</b>	Jeff Haberl, Texas A&M	5 minutes
<b>Discussion &amp; Questions</b>		45 minutes
<ul style="list-style-type: none"> <li>• What were the primary policy drivers for your state lead-by-example programs on buildings, procurement or renewable energy?</li> <li>• How did you determine the target reduction or procurement goals?</li> <li>• How does your state measure and track progress in meeting lead-by-example program efforts?</li> <li>• Are there tools, models, software applications that you use in your tracking or measurement efforts?</li> <li>• How do you determine baselines?</li> <li>• What emissions estimating protocols and tools do you use?</li> <li>• What information or data gaps are you encountering in your efforts?</li> <li>• What other challenges or lessons learned can you share with other states?</li> </ul>		
<b>Summary of Key Points/Technical Needs</b>	Catherine Morris, TKC	5 minutes
