

## State Clean Energy-Environment Technical Forum Output-based Emission Standards and Allocation to Promote CHP

**Thurs., Mar. 9, 2006  
2:00 - 3:30 PM ET**

**Toll free: 1-800-974-2164  
Passcode: 827218#**

<b>Welcome Roll Call &amp; Ground rules for Call</b>	Julie Rosenberg, EPA Catherine Morris, Keystone	5 minutes
<b>Overview of Topic:</b>	Joel Bluestein, EEA, Inc., STAPPA Model Rule	10 minutes
<b>Connecticut:</b>	Chris Nelson & Chris James CT Dept. of Environmental Protection	10 minutes
<b>Indiana:</b>	Roger Letterman, IN Dept. of Environmental Management	10 minutes
<b>Discussion &amp; Questions</b>		50 minutes
	<ul style="list-style-type: none"> <li>• What are the primary policy drivers for implementing output-based regulatory mechanisms in your state?</li> <li>• How were output based standards applied, e.g. through permitting, allocation formulas, set-aside of allocations for CHP or setting other emission standards?</li> <li>• How many CHP applicants have responded to the output-based allowance set-aside? What are the barriers to greater participation?</li> <li>• What are the pros and cons of a fuel-neutral output-based approach?</li> <li>• What challenges did you face and what additional technical assistance would be helpful?</li> </ul>	
<b>Summary of Key Points/Technical Needs</b>	Tom Frankiewicz, EPA Catherine Morris, Keystone	5 minutes
