Discussion & Questions		35 minutes
<ol style="list-style-type: none"> 1. How has your state engaged on examining and/or advancing IGCC/CCS efforts? What have been the motivations? 2. How does the state's promotion of/policies on IGCC/CCS fit into a broader energy strategy, if any? 3. Are entities in your state making use of/ intend to make use of incentives under EPA Act provisions? 4. Is your state considering developing specific incentives and/or provisions related to IGCC/CCS? 5. What has been the role of different state agencies (PUCs, environment, energy, economic development) and the legislature and to what extent have efforts been coordinated? 6. Is there a role for broader state to state and/or regional coordination on this issue? 7. Are there any "lessons learned" to share with other states? 8. What resources (reports, organizations, etc.) have you found helpful in thinking through this topic?
