Discussion & Questions		35 minutes
<ol style="list-style-type: none"> 1. What tools have been most effective in promoting efficiency in affordable housing? 2. How do policy levers differ in advancing efficiency in publicly-owned vs. private sector affordable housing? 3. Have you been able to measure the energy savings from these initiatives? 4. What has been the role of different state agencies (PUCs, environment, energy, economic development) and the legislature and to what extent have efforts been coordinated? 5. Are there any “lessons learned” to share with other states? 6. What resources (reports, organizations, etc.) have you found helpful in thinking through this topic? 7. What information can EPA provide to assist states in advancing efficiency in affordable housing? 		
Summary of Key Points/Technical Needs		5 minutes

Please email questions in advance or during the call to cmorris@keystone.org.
