<b>CT Climate Change Action Plan and Co-benefits</b>	Chris James, Manager, Climate Change and Energy Programs Connecticut Department of Environmental Protection	20 minutes
<b>Co-Benefits of Clean Energy in Texas</b>	Dub Taylor, Director Texas Energy Conservation Office	20 minutes
<b>Discussion &amp; Questions</b>		35 minutes
<ol style="list-style-type: none"> <li>1. How have co-benefits helped make the case for clean energy programs or policies? Which have been the most important – cost savings, air quality benefits, GHG emission reductions or economic development?</li> <li>2. What planning and analysis tools exist to assist in recognizing and promoting co-benefits?</li> <li>3. What are the primary barriers to using co-benefits to advance clean energy efforts?</li> <li>4. What federal or state policies/programs are being considered to overcome these hurdles?</li> <li>5. What lessons learned can you share with other states interested in documenting and using co-benefits to promote clean energy programs?</li> </ol>		
<b>Summary of Key Points/Technical Needs</b>		5 minutes

*Please email questions in advance or during the call to [cmorris@keystone.org](mailto:cmorris@keystone.org).*
