National Action Plan for Energy Efficiency: Vision for 2025

Welcome	Julie Rosenberg, Director, Clean Energy-Environment State Partnerships State & Local Branch, Climate Protection Partnerships Division, US EPA Catherine Morris, The Keystone Center	5 minutes
State Perspective: Overview of the Action Plan's Vision for 2025	Commissioner Marsha Smith, Idaho Public Utilities Commission, President of National Association of Utility Commissioners (NARUC)	20 minutes
Utility Perspective: Achieving the Vision for 2025	Mary Kenkel, Alliance One, Consultant to Duke Energy	20 minutes
Facilitated Discussion		40 minutes
	<ol style="list-style-type: none"> 1. What is the long-term goal and implementation strategy behind the Action Plan's Vision? What would our energy systems look like in 2025 if the Vision is realized? 2. What are the first steps states should take to advance the 10 implementation goals? 3. What resources, tools and case studies are available to help states and utilities that want to make a commitment to meet the Action Plan Vision? 4. What ways can states quantify and recognize the environmental benefits from energy efficiency? 5. What are the most important incentives states and utilities can provide to energy consumers to implement maximum energy efficiency? 6. What methods and tools do you suggest states use to measure progress toward meeting the goals? 	
Summary of Key Points/Technical Needs		5 minutes
