

State Clean Energy-Environment Technical Forum

**Tuesday, Oct. 21, 2008
2:00 – 3:30 PM ET**

**Toll free: (866)299-3188
Passcode: 587 856 1975#**

Renewable Energy Certificates

Welcome	Julia Miller, Clean Energy-Environment State Partnerships State & Local Branch, Climate Protection Partnerships Division, U.S. EPA Catherine Morris, The Keystone Center	5 min
Overview of RPS & RECs	Matt Clouse, EPA Green Power Partnership	10 min
North Carolina	Sam Watson, General Counsel, NC Public Utilities Commission	15 min
Maryland	Michael Li, Chief of Staff, MD Energy Administration	15 min
Facilitated Discussion	<ol style="list-style-type: none"> 1. What are the primary policy drivers for eligibility requirements in your state RPS? 2. How does the REC tracking system enhance or limit the availability of RECs for RPS compliance? 3. What is the history of the price of RECs in your state or region and what factors have had the greatest impact on variability in REC markets? 4. How has your state handled the question of selling unbundled attributes of RECs in other markets? 5. Have you quantified the air quality and climate change benefits of the state RPS policy? 	40 min
Wrap-up		5 min
