<ol style="list-style-type: none"> 1. Across the spectrum of LBE opportunities (buildings and operations, vehicle fleets, energy supply and procurement practices) where have you had the greatest success and the most challenges? 2. Which resources have you found most helpful in setting LBE goals and measuring progress? 3. How has your state financed LBE investments? Have you been able to create a sustainable financing approach? 4. Have LBE programs had an effect on clean energy investment in local governments and/or the private sector in your state? 5. What are some good lessons learned that facilitate the transition from an LBE to private sector program?
